

Irrigation Service Agreement

CLASSIC PRO ELITE

💧	💧	💧	Winter Blow Out: Depressurize and drain the irrigation water source, blow out any residual water in the lines for each zone using compressed air, remove the backflow and deactivate the controller for the season
💧	💧	💧	Spring Start Up: Reattach the backflow and pressurize the system. Inspect the main line and lateral lines for leaks, test all zones to evaluate whether adjustments or repairs are needed, rain sensor and program the controller.
	💧	💧	Summer Check: Inspect the main line and lateral lines for leaks, check the rain sensor, adjust heads, program controller for the summer heat
		💧	Fall Check: Inspect the main line and lateral lines for leaks, check the rain sensor, adjust heads, program the controller for the Fall seeding
\$200	\$250	\$295	10 zones or less
\$225	\$290	\$337	11 - 16 zones
\$250	\$330	\$375	17 - 24 zones

1. Labor: If repairs are required, they are made at the rate of \$95.00 per hour plus parts.
2. Payments: All payments are due once the work is completed unless communicated with the Bio Turf team. We can process all major credit cards in the field.
3. PLEASE NOTE: If we arrive at a scheduled appointment time and no one is home or access to the irrigation controller is not available, you will be billed a \$45.00 trip charge.

The Service Agreement will automatically renew each year unless cancelled in writing by the customer. A late fee of 15% will be charged on all unpaid balances after 15 days. After 60 days, all unpaid balances will be sent to collections.
